The council would not wish to see modern security lighting as they feel it is unsympathetic to the listed status of the property and the conservation area. If lighting is required it must be of a lower intensity and in a sympathetic style to the conservation area.

The council do not agree with the pre application advice provided by Sue Warren regarding roof materials. A corrugated iron roof would not be an acceptable alternative to the reclaimed double roman red tile and ridge tiles detailed in the plans

The colour of structure must remain natural. If preservative is required it must be of a clear variety.

Willand Parish Council recommends approval subject to revised lighting proposals.
